- **Real-World Application:** Understanding conformity is essential in diverse contexts, from marketing and advertising to societal norms and political behavior.

Example 3: Biological Psychology - Neurotransmitters

- **Explanation:** Neurotransmitters are chemical messengers that facilitate communication between neurons.
- **Chart/Table:** | Neurotransmitter | Function | Example Disorder | |||| |
Dopamine | Motivation, reward | Parkinson's Disease, Schizophrenia | | Serotonin | Mood regulation, sleep | Depression | | Norepinephrine | Alertness, stress response | Anxiety disorders |
- **Real-World Application:** Research into neurotransmitters leads to the development of medications for various psychological disorders.

Specific Study Strategies for IB Psychology
