The Unfolding of a New Chapter: Navigating Divorce in Australia

The crisp autumn air, tinged with the scent of fallen leaves, mirrored the tumultuous emotions swirling within me. A marriage, once a vibrant tapestry of shared dreams, now lay unravelled, threads of discord frayed and tangled. This wasn't a fairy tale ending, not the happily ever after I'd envisioned. Instead, it was the stark reality of navigating a divorce in Australia. And frankly, it was a messy, emotional, and often bewildering process. This isn't a legal guide; it's a personal account of my journey through the complexities of ending a marriage down under. *(Image: A split image. One side shows a vibrant couple laughing, the other a lawyer's office, documents spread out on a table.)* My initial reaction was shock, followed quickly by a torrent of conflicting emotions – hurt, anger, fear, and a gnawing sense of uncertainty. The thought of navigating the legal system, dividing assets, and potentially confronting my ex felt overwhelming. I needed answers, solutions, and most importantly, a way to navigate this new chapter in my life.

The Australian Divorce Process: A Personal Perspective

Australia's Family Law system, while designed to provide a structured path, can feel like a maze of legal jargon and procedural steps. It's not a quick or easy process. One of the most daunting aspects was understanding the legal requirements for initiating a divorce. *(Image: A mind-map outlining the divorce process stages with key terms like 'Separation', 'Application', 'Court Hearings'.)*

The Benefits (If Any)

While there aren't straightforward "benefits" to the process itself, some positive aspects emerged from this

challenging time: • **Self-Discovery:** Divorce forced me to confront my vulnerabilities and strengths. It was a catalyst for personal growth. • **Clarity and Independence:** The process of separating my life from my ex allowed me to define my own path and identify my needs. • The Path to a New Beginning: While undeniably painful, the finality of divorce allowed me to embrace a future with new goals and possibilities.

Navigating the Emotional Terrain

The Silent Struggle

Divorce isn't just about paperwork; it's a deep emotional excavation. There's often a period of intense introspection, where you confront painful truths about your past choices. My initial silence became a barrier, hindering healthy communication with myself and others. (Image: A visual representation of a person struggling to communicate, words getting lost in the air).

Grief and Acceptance

Mourning the loss of a relationship, even a failed one, is crucial. Allow yourself time to grieve. I remember a wave of sadness, followed by a painful acceptance that this was the reality. Talking to therapists and friends was invaluable in helping me through the process. (Image: A montage of different therapy-related imagery - counseling rooms, support groups.)

The Legal Landscape

Financial Settlement: A Minefield

Dividing assets and debts is often the most contentious aspect of divorce. It's about much more than just dividing bank accounts; it often involves property, superannuation, and even business interests. Navigating these conversations with an ex during an emotional period is incredibly difficult. (Image: A visual representation of a balance sheet with different sections of assets and debts.)

Child Custody and Support: A Delicate Balance

When children are involved, divorce becomes even more complicated. It's about balancing the needs of the children with the emotional needs of the parents. Finding a fair and equitable arrangement is paramount, especially with the emotions involved. A key step was finding a family law professional to guide us through the child-related processes and make the situation easier. Divorce can be a significant life transition, impacting everything from your housing to your social circles. It's crucial to rebuild your life in phases. Starting with small steps and focusing on self-care is important. (Image: A visual representation of a timeline with milestones like 'New Home', 'Job Search', 'Rebuilding Social Circle.')

Finding Support and Connection

Lean on your friends and family during this time. Building a support network, whether through online forums, support groups, or close friends and family, can be hugely valuable. Joining a support group was one of the best things I did as it helped me feel less alone.

Navigating the Path to Divorce in Australia: A Comprehensive Guide

The decision to end a marriage is rarely easy. It's a complex emotional journey, and navigating the legalities of divorce in Australia can feel like an added layer of stress. But understanding the process, the requirements, and your options can make this transition smoother. This guide aims to demystify 'how to get a divorce in Australia', providing clear, practical information to help you move forward.

Whether you're contemplating divorce, have already made the decision, or are actively seeking a divorce, this article will walk you through the essential steps, legal considerations, and common questions. We'll cover everything from the grounds for divorce to the paperwork involved, and what to expect from the Family Court of Australia.

Understanding the Grounds for Divorce in Australia

In Australia, the legal system operates on a 'no-fault' divorce system. This means you don't need to prove that one party is to blame for the marriage breakdown. The sole ground for divorce is that the marriage has irretrievably broken down.

The 12-Month Separation Requirement

The cornerstone of obtaining a divorce in Australia is proving that you and your spouse have lived separately and apart for a continuous period of at least 12 months immediately preceding the filing of the divorce application. This separation period is crucial and cannot be waived.

What constitutes separation? Separation doesn't always mean living in separate houses. You can be considered separated while living under the same roof. This might involve sleeping in separate bedrooms, ceasing to share meals, and making it clear to each other and others that the marital relationship has ended. It's about the cessation of cohabitation as a married couple.

When does the 12 months start? The clock starts ticking from the date you both genuinely intended for the marriage to end and your conduct reflected that intention. If you've lived separately but then reconciled for a period of less than three months, the separation period can be resumed, and the total separation period still counts towards the 12 months. However, if the reconciliation lasts for three months or more, you'll need to start the 12-month separation period again from the date of the latest separation.

The Divorce Application Process

The divorce application is filed with the Federal Circuit and Family Court of Australia (FCFCOA). There are two main ways to apply:

Applying as a Sole Applicant

If you are applying for a divorce on your own, you will need to complete the Application for Divorce form. This form requires detailed information about your marriage, your separation, and your

children (if any).

Key Information Required for a Sole Application:

1. Full names and dates of birth of both parties.
2. Date and place of marriage.
3. Details of any previous marriages for either party.
4. Details of any children of the marriage (under 18 years of age), including their names, dates of birth, and current living arrangements.
5. The date you separated.
6. Evidence of your Australian citizenship or residency status.

Applying as Joint Applicants

If both you and your spouse agree to the divorce and are in agreement about the grounds and the separation period, you can apply jointly. This can sometimes streamline the process as there's no dispute about the facts. The application form is similar, but both parties will sign it.

Filing the Application

Once completed, the application form, along with the required supporting documents and the filing fee, is submitted to the FCFCOA. Applications can generally be filed online through the Court's portal or by mail. The filing fee is subject to change, so it's always best to check the current fees on the FCFCOA website.

Serving the Divorce Application

After filing, the divorce application must be 'served' on the other party. This means formally notifying them of the divorce

proceedings. The rules around service are strict to ensure the other party is aware of the application and has an opportunity to respond.

Methods of Service

1. **Personal Service:** This involves handing a copy of the application directly to the other party. This is the most common and preferred method.
2. **Service by Mail:** In some limited circumstances, service by mail may be permitted, but this usually requires court permission.
3. **Dispensing with Service:** If you are unable to locate your spouse or they are deliberately evading service, you can apply to the Court for an order to dispense with service. This is a more complex process and requires substantial evidence.

Proof of service is essential. The person who serves the application will need to complete an Affidavit of Service, which is then filed with the Court.

Service on Children Under 18

If you have children under 18 years of age, the Court requires you to demonstrate that proper arrangements have been made for their care, welfare, and development. This is a crucial aspect of the divorce process, and the Court will not grant a divorce if these arrangements are not satisfactory. This might involve explaining who the children will live with, how their schooling will be managed, and how their healthcare will be provided.

Court Hearings and Divorce

Orders

Once the application is filed and served, and the mandatory 28-day response period has passed (or longer if one party is outside Australia), the Court will schedule a hearing. The purpose of the hearing is for the Court to be satisfied that all the legal requirements for divorce have been met.

When is a Court Hearing Required?

A court hearing is mandatory in the following situations:

1. If you have children under 18 years of age.
2. If the application is not filed as a joint application.
3. If you are seeking to dispense with service.

What Happens at a Hearing?

If a hearing is required, you (or your legal representative) will attend court. The judge will ask questions to ensure the grounds for divorce are met and that satisfactory arrangements are in place for any children. If all requirements are met, the judge will usually grant the divorce.

Exemption from Attending Court

If you and your spouse have no children under 18, and the application was filed jointly or served correctly, you may be eligible for an exemption from attending the court hearing. In such cases, the divorce order may be granted without a formal appearance.

The Final Divorce Order

If the Court is satisfied that all requirements have been met, it will grant a Divorce Order. This order formally ends your marriage. There is a one-month waiting period after the Divorce Order is granted before it becomes final. This waiting period allows either party to appeal the decision if they have grounds to do so.

When Can You Remarry?

You cannot remarry until the Divorce Order is final. Once the one-month waiting period has expired and no appeal has been lodged, the divorce is final, and you are legally free to remarry.

Important Considerations Beyond the Divorce Order

It's crucial to understand that a Divorce Order only legally ends your marriage. It does not address other important matters that often arise from a marital breakdown, such as:

Property Settlement

Division of assets and liabilities acquired during the marriage. This can include property, superannuation, savings, investments, and debts. It's important to note that there are time limits for initiating property settlement proceedings after a divorce. Generally, you have 12 months from the date your divorce order becomes final to commence court proceedings for property settlement. If you don't act within this time, you may lose your right to seek a property adjustment from the court.

Spousal Maintenance

Financial support paid by one former spouse to the other. This is typically considered when one party is unable to support themselves adequately due to factors like age, illness, or the need to care for children.

Children's Issues (Parenting Arrangements)

While the divorce application requires you to demonstrate 'proper arrangements' for children, these arrangements are assessed based on their best interests. If parents cannot agree on parenting matters such as where the children live, how much time they spend with each parent, or issues related to their education and health, they may need to seek court orders through the Family Court.

These matters are often dealt with separately from the divorce itself. Ideally, they are resolved through negotiation, mediation, or court proceedings before or at the same time as the divorce application is made. However, the divorce application can still proceed even if these other matters are ongoing.

Seeking Legal Advice

Navigating the divorce process can be complex, and legal requirements can be confusing. It is highly recommended to seek legal advice from a qualified family lawyer in Australia. A lawyer can:

1. Explain your rights and obligations.
2. Help you prepare and file the divorce application correctly.
3. Advise you on property settlement, spousal maintenance, and

parenting arrangements.

4. Represent you in court if necessary.

There are also resources available to help if you cannot afford legal representation, such as Legal Aid commissions and community legal centres.

Common Questions About Divorce in Australia

How long does it take to get a divorce?

The divorce process itself, from filing the application to the Divorce Order becoming final, typically takes around 4-6 months. This includes the 12-month separation period, the filing and serving of documents, and the waiting periods before a hearing and before the order becomes final.

What if my spouse won't agree to the divorce?

If you meet the 12-month separation requirement, your spouse's agreement is not necessary to obtain a divorce. You can proceed with a sole application. However, if they dispute the grounds for divorce (e.g., the separation period), it can complicate the process.

Can I get divorced if I'm still living with my spouse?

Yes, it's possible if you can prove you have been separated and living under the same roof. This requires demonstrating a clear

intention to separate and a change in the nature of your relationship, such as sleeping in separate rooms and ceasing to share domestic duties and social activities as a couple.

What happens to my name after divorce?

A divorce order does not automatically change your name. If you wish to revert to your previous surname, you will need to apply for a change of name certificate from the relevant Births, Deaths and Marriages registry in your state or territory, or use your former name on official documents with the consent of the relevant authorities.

Conclusion

Getting a divorce in Australia is a legal process with specific requirements. The core is proving a 12-month separation and filing the correct paperwork with the Federal Circuit and Family Court of Australia. While the system is designed to be straightforward, understanding each step, from application to service and the final order, is crucial. Remember that the divorce order is just one piece of the puzzle. Addressing property, finances, and children's arrangements are equally important and may require separate legal advice and action. By gathering information and seeking professional guidance, you can navigate this significant life change with greater confidence.

Getting a Divorce in Australia: A Comprehensive Guide Divorce is a significant life transition that requires careful navigation, especially in a country like Australia, where legal procedures are structured to balance fairness, clarity, and emotional sensitivity. Understanding

how to initiate and complete the divorce process empowers individuals to make informed decisions during one of life's most challenging moments. This article explores the key aspects of getting a divorce in Australia, offering practical insights that reflect current legal frameworks and evolving societal needs.

Understanding the Legal Landscape of Divorce in Australia

In Australia, divorce is legally recognized but governed by specific state and territory laws, meaning the process can vary slightly across jurisdictions.

Unlike some countries that require fault-based grounds, Australia operates primarily on a no-fault basis—meaning one spouse does not need to prove wrongdoing. Instead, couples

must meet residency and separation requirements, typically needing to have lived apart for at least 12 months under de facto status or meet specific criteria in certain states. The Family Law Act 1975 provides the national foundation, emphasizing the welfare of children and equitable asset distribution as central principles. This framework ensures that divorce proceedings prioritize both emotional well-being and financial fairness.

Key Steps to Initiate Divorce

The first step in starting a divorce is

consulting a family law professional, preferably a registered specialist or accredited legal practitioner. While some couples may begin informal discussions about separation, formal legal action begins with filing a Petition for Divorce at the local Federal Circuit Court or State Supreme Court, depending on jurisdiction. The petition must clearly state the grounds—typically simply declaring the marriage is irretrievably broken—and include essential details such as residency, marriage duration, and any children involved. Filing this document officially notifies the spouse and initiates the legal timeline, which generally lasts 12 to 24 months, though this can be expedited in simple cases.

Once the petition is filed, the other

spouse receives notice and has the opportunity to respond. During this period, both parties may negotiate financial settlements, property division, and parenting arrangements—often with or without court mediation. Mediation is strongly encouraged as a cost-effective and less adversarial path, helping couples reach mutually acceptable agreements. If mediation fails or is not mandated, the case proceeds to court hearings, where evidence, witness testimony, and legal arguments shape the final judgment.

Navigating Asset Division and Spousal Maintenance

One of the most complex aspects of divorce in Australia is determining

how marital assets and debts are divided. Under the Family Law Act, assets acquired during the marriage are generally split equitably, though not always equally, based on fairness, contribution, and future needs.

Property such as homes, bank accounts, vehicles, and investments fall under this rule, while debts like mortgages or loans are typically shared. Spousal maintenance, or alimony, may be awarded to support a spouse financially, especially if one has sacrificed career opportunities for caregiving. The court considers factors including earning capacity, age, health, and standard of living to determine whether and how maintenance should be paid.

Children's welfare remains a paramount consideration throughout

the process. Courts prioritize maintaining stable, loving relationships and encourage shared parental responsibility unless it poses risk. Parenting plans are developed collaboratively or adjudicated, outlining custody schedules, decision-making rights, and communication protocols. These plans aim to minimize conflict and support children's emotional resilience during transition.

Benefits of a Structured Divorce Process

Australia's formalized divorce system offers significant benefits beyond legal closure. The emphasis on mediation promotes respectful dialogue, reducing

long-term animosity and fostering healthier post-divorce co-parenting. Court oversight ensures transparency and accountability, protecting vulnerable parties—particularly those with limited legal knowledge or financial resources. Additionally, clear legal standards provide predictability, helping individuals plan financially and emotionally for the future. The focus on children's best interests reinforces societal values around family stability and child development, offering children continuity and support.

Looking to the Future: Trends and Innovations

As Australia continues to evolve socially and technologically, the divorce landscape is adapting. Digital platforms now offer accessible legal resources, online dispute resolution, and virtual court hearings, improving access and reducing delays. There is growing recognition of diverse family structures, prompting legal reforms to better support LGBTQ+ couples and blended families. Additionally, increased emphasis on pre- and post-divorce counseling reflects a shift toward holistic well-being, supporting emotional recovery alongside legal resolution. These trends suggest a future where divorce processes

become even more equitable, efficient, and compassionate.

In conclusion, navigating divorce in Australia requires understanding both the legal requirements and the emotional dimensions involved. By engaging professional support, embracing mediation, and prioritizing children's welfare, individuals can move through this transition with greater clarity and dignity. As legal frameworks continue to evolve, the goal remains clear: facilitating fair, compassionate outcomes that empower people to rebuild their lives with confidence and peace.

Navigating the complexities of divorce can be a daunting prospect for anyone. In Australia, the process is

governed by specific legal frameworks designed to ensure fairness and provide clarity for separating couples. This comprehensive guide aims to demystify the journey of obtaining a divorce in Australia, offering a detailed, analytical overview for those seeking to understand their options and the steps involved. From the initial grounds for divorce to finalising legal separation, we'll explore every crucial aspect, ensuring you're well-informed.

Understanding the Grounds for Divorce in Australia

Australia operates under a no-fault divorce system. This means you do not need to prove adultery, cruelty, or abandonment to be granted a divorce. The sole ground for divorce is the

irretrievable breakdown of the marriage, which is demonstrated by living separately and apart for a continuous period of at least 12 months.

The 12-Month Separation Requirement

This is the cornerstone of the Australian divorce process. The 12-month period must be continuous. If a couple reconciles for a period of less than three months during the 12-month separation, it does not break the continuity of the separation, provided they separate again and continue to live apart for the remainder of the 12 months. This 'living separately and apart' can occur even if you continue to live under the same roof, though proving this can be more challenging. It requires

demonstrating that you no longer share marital responsibilities, such as sleeping in the same room, sharing meals, or engaging in social activities as a couple.

Exceptions to the 12-Month Rule

While the 12-month rule is standard, there are limited exceptions. For instance, if you have been married for less than two years, you generally need to obtain a certificate from a family counsellor or, in some cases, prove that there are exceptional circumstances to justify a divorce. This aims to prevent hasty decisions in shorter marriages.

The Divorce Application Process

The divorce application is filed with the Federal Circuit and Family Court of

Australia. The process can be undertaken jointly by both parties or by one party acting as the applicant, with the other party as the respondent. Understanding the application requirements is crucial for a smooth transition.

Joint vs. Sole Application

A joint divorce application is generally simpler and quicker. Both parties agree on the divorce and complete the application together. This demonstrates a mutual understanding and willingness to move forward, often leading to less court involvement. A sole divorce application is initiated by one party. In this scenario, the applicant must formally serve the divorce application on the respondent. This process requires adherence to

strict rules regarding service to ensure the respondent is aware of the proceedings.

Gathering Necessary Documents

Before commencing your application, you'll need to have certain documents ready. These typically include:

- 1. Your marriage certificate (original or certified copy).**
- 2. Proof of identity (e.g., driver's licence, passport).**
- 3. If you were married overseas, your overseas marriage certificate and, if not in English, a certified translation.**
- 4. For applications involving children under 18, details of the arrangements for the children.**

Completing the Application Form

The divorce application form can be

found on the Federal Circuit and Family Court of Australia website. It requires detailed information about your marriage, separation, and any children. Accuracy is paramount; errors can lead to delays or the application being dismissed.

Filing the Application and Fees

Once completed, the application form and supporting documents are filed with the Court, either online through the Commonwealth Courts Portal or in person at a court registry. A filing fee is payable at the time of lodgement. Fee waivers or concessions may be available for individuals experiencing financial hardship.

Serving the Divorce Application

(for Sole Applications)

If you are filing a sole application, the respondent must be formally notified of the divorce proceedings. This is known as 'service'. Proper service is a legal requirement to ensure fairness and give the respondent an opportunity to respond.

Methods of Service

There are several approved methods of service:

- 1. Personal Service: Handing a copy of the application directly to the respondent.**
- 2. Service by Post: Sending the application to the respondent's last known address via registered post.**
- 3. Service by an Approved Agent: Engaging a professional process**

server.

- 4. Substituted Service: If direct service is impossible, the Court may allow alternative methods, such as serving through social media or a family member, provided it is likely to come to the respondent's attention.**

Crucially, the applicant cannot serve the application on the respondent themselves. It must be done by a third party or the Court.

Court Hearings and Divorce Orders

Once the application is filed and served (if applicable), the Court will schedule a hearing. The nature of the hearing depends on whether the application is joint or sole, and whether children are involved.

Children Under 18 Years of Age

If you have children under the age of 18, the Court must be satisfied that adequate arrangements have been made for their welfare and upbringing before granting a divorce order. This doesn't necessarily mean a formal parenting plan is required, but the judge will need to be convinced that the arrangements are appropriate. The applicant (or both applicants in a joint application) will need to provide a statement confirming these arrangements.

Divorce Hearings

In a joint application, or if the respondent agrees to the divorce in a sole application, the hearing may be very brief or even waived if the Court is satisfied with the documentation. In

a sole application where the respondent has not responded or opposes the divorce, a judge will hear the case. The applicant must attend the hearing to provide evidence and answer any questions. If children are involved, the judge will pay close attention to the arrangements for their care.

The Divorce Order

If the Court is satisfied that the grounds for divorce have been met, it will grant a Divorce Order. This order officially ends the marriage. There is typically a mandatory waiting period of one month and one day from the date the Divorce Order is granted before it becomes final. This period allows for any appeals or further consideration.

What Divorce Does NOT Cover

It is vital to understand that a divorce order **only legally ends your marriage. It does not address property settlement, spousal maintenance, or child custody arrangements. These matters are separate legal processes that must be finalised either by agreement or through court orders before or after the divorce is granted.**

Property Settlement and Divorce

Property division involves the equitable distribution of assets and liabilities acquired during the marriage. This can include real estate, bank accounts, superannuation, investments, and debts. While you can reach an agreement on property settlement at any time, there are time limits for applying to the court for

orders if you cannot agree. For divorce, you generally have 12 months from the date your divorce order becomes final to file an application for property settlement with the court. If you miss this deadline, you will need to seek the court's permission to proceed, which is not always granted.

Spousal Maintenance

Spousal maintenance is financial support paid by one ex-partner to the other after separation. It is not automatic and is assessed based on need and ability to pay. Again, there are time limits to apply to the court for spousal maintenance, similar to property settlement.

Children's Issues (Parenting

Arrangements)

Arrangements for children, including where they live, how much time they spend with each parent, and other aspects of their care, need to be formally agreed upon or ordered by the court. While the divorce order ensures adequate arrangements are in place for children under 18, the specific details of parenting time and responsibilities are often addressed in separate parenting plans or court orders.

Seeking Legal Advice

Given the complexities involved, especially concerning property and children, seeking professional legal advice is highly recommended. A qualified family lawyer can guide you through each step, ensure all legal

requirements are met, and help you navigate the associated issues of property settlement and parenting arrangements.

When to See a Lawyer

You should consider consulting a lawyer:

- 1. If you have children under 18.**
- 2. If you and your partner have significant assets or debts.**
- 3. If you are unsure about your legal rights or obligations.**
- 4. If you anticipate disagreements with your partner regarding property or children.**
- 5. If you are considering a sole divorce application and need help with service.**

Legal Aid and Community Legal Services

For those with limited financial resources, Legal Aid commissions in each state and territory offer free or low-cost legal advice and representation. Community legal services also provide invaluable assistance to eligible individuals. Exploring these options can make the divorce process more accessible.

Key Takeaways for a Smooth Divorce

Obtaining a divorce in Australia is a legal process with specific requirements. By understanding the grounds for divorce, the application procedures, and what the divorce order does and does not cover, you can approach the process with greater

confidence. Remember:

- 1. Separation is key: You must have lived separately for at least 12 months.**
- 2. No-fault system: You don't need to blame your partner.**
- 3. Court application: The divorce is granted by the Federal Circuit and Family Court of Australia.**
- 4. Children under 18: Arrangements for their welfare are crucial for the divorce order.**
- 5. Divorce is not property settlement: These are separate legal matters.**
- 6. Seek advice: A family lawyer can provide essential guidance.**

While the legalities of divorce can seem overwhelming, a structured approach, clear understanding of the requirements, and professional

support can significantly ease the journey towards a new chapter. This guide provides a foundation, but individual circumstances may necessitate tailored legal advice to ensure the best possible outcome for all parties involved, particularly when considering children's futures and financial arrangements.

Questions & Answers About how to get a divorce in australia

N o	Question	Answer
1	What's the absolute first step to getting a divorce in Australia?	The first step is to meet the legal grounds for divorce, which in Australia means you and your spouse must have been separated for at least 12 months and one day. You'll then need to file an Application for Divorce with the Federal Circuit and Family Court of Australia.
2	Do I need a lawyer to get a divorce in Australia?	While you can apply for a divorce yourself, it's highly recommended to get legal advice, especially if you have children or complex property matters. A lawyer can help ensure all paperwork is correct, advise on your rights and obligations, and navigate the court process more smoothly.
3	What if my spouse doesn't agree to the divorce?	In Australia, one person can initiate a divorce even if the other party doesn't agree. The court only requires proof that you've been separated for the required period. Your spouse will still be notified and given an opportunity to respond.
4	How long does the divorce process usually take in Australia?	Once filed, the divorce application typically takes a few months to finalise. The court usually schedules a hearing around 4-6 weeks after filing, and the divorce order usually becomes final a month after the hearing.

5	Do I need to sort out property and children before divorcing?	No, you don't legally need to finalise property settlements or parenting arrangements before applying for a divorce. However, it's often wise to address these issues beforehand to avoid complications and stress down the line.
6	What are the costs involved in an Australian divorce?	The main cost is the court filing fee, which changes annually. You may also incur costs for legal advice, preparing court documents, and serving the application on your spouse. If you can't afford the fees, you might be eligible for fee assistance.
7	What if we have children under 18? Does that make divorce harder in Australia?	If you have children under 18, the court requires you to provide evidence that proper arrangements have been made for their care, welfare, and development before granting a divorce. This might involve a parenting plan or court order, and you'll likely need to attend a court hearing.
