Focus on Weak Areas

Use your performance on practice questions and exams to identify your weakest areas. Dedicate more time and effort to mastering these topics. Don't shy away from challenging concepts; they are often the ones that will be most heavily tested.

Active Learning Techniques

Don't just passively read. Engage with the material by summarizing key concepts, creating flashcards, teaching the material to someone else, or working through practice scenarios. Active learning helps to reinforce understanding and improve retention.

Sample Questions and Analysis (Illustrative)

While specific sample questions are best found within Kaplan's official materials, we can discuss the *types* of questions you might encounter and how to approach them. Often, these questions are scenario-based, requiring you to apply management principles to realistic situations.

Example Scenario Type: Conflict Resolution

A nurse manager might be presented with a scenario involving interpersonal conflict between two staff nurses on a busy shift. The question could ask about the most effective first step to resolve the conflict. Potential answer choices might include:

- 1. A. Telling both nurses to resolve it themselves.**
- 2. B. Speaking to each nurse individually to gather their perspectives.**
- 3. C. Holding a group meeting immediately to discuss the issue.**
- 4. D. Documenting the conflict and ignoring it for now.**

Analysis: A competent nurse manager

would recognize that option B, speaking to each nurse individually, is often the most appropriate initial step to gather objective information without escalating the situation or putting individuals on the defensive. This demonstrates an understanding of conflict resolution techniques and effective communication.

Example Scenario Type: Resource Allocation

Another scenario could involve a sudden increase in patient admissions, leading to a shortage of essential supplies. The question might ask about the nurse manager's immediate action to ensure patient care continuity.

Options could include:

1. A. Discontinuing non-essential

services until supplies are replenished.

- 2. B. Contacting the supply chain department and exploring alternative sourcing.**
- 3. C. Asking nurses to ration supplies.**
