Regular Cleaning is Key

Dust and lint are the enemies of smooth sewing machine operation. After each significant sewing session, take a few moments to clean the bobbin area and the feed dogs. A small brush (often included with the machine) or

a can of compressed air can be very effective. Pay attention to any areas where lint tends to accumulate.

Oiling When Necessary

Refer to your Janome Jem Platinum 760's user manual for specific instructions on where and when to oil your machine. Typically, certain points require a drop of sewing machine oil periodically. Over-oiling can cause problems, so follow the manufacturer's recommendations closely.

Needle Changes for Optimal Performance

A dull or bent needle can lead to skipped stitches, fabric damage, and uneven seams. Make it a habit to change your needle regularly, especially when you notice a change in stitch quality or when switching to a different fabric type. Using the correct needle for your fabric is also crucial.

Professional Servicing

Even with diligent home maintenance, it's wise to have your Janome Jem Platinum 760 professionally serviced every 1-2 years. A qualified technician can perform a more thorough cleaning, lubrication, and tension adjustments, ensuring your machine is running at its best.

Maintenance and Care for Your Janome Jem Platinum 760

To ensure your Janome Jem Platinum 760 continues to perform optimally, regular maintenance is essential. Following the manufacturer's recommendations will prolong its

Oiling (if applicable)

Check your machine's manual to see if periodic oiling is recommended for specific parts. Janome machines are generally designed to be low-maintenance, but some older or

specific models might require occasional lubrication.

Needle Changes

Using the correct needle for your fabric and changing it regularly (typically every 6-8 hours of sewing or when you notice skipped stitches or thread breakage) is crucial for stitch quality and preventing damage to the machine. Keep a variety of needle types and sizes on hand.

Professional Servicing

Consider having your Jem Platinum 760 professionally serviced every 1-2 years, especially if you use it frequently. A qualified technician can ensure all parts are aligned,

lubricated, and functioning correctly, catching minor issues before they become major problems.
